COMPLIANT INFRASTRUCTURE FOR LIFE SCIENCES

Meet Your Industry's Regulatory Requirements

COMPLIANT CLOUD SOLUTIONS FOR YOU

Life sciences organizations must stay vigilant and engaged with the latest compliance regulations to safeguard data and assure adherence to the needs of government and industry regulators.

But ever-changing compliance requirements often present technology challenges that existing teams may be ill-equipped to resolve and support. Additionally, a quickly scaling company might find itself facing suddenly overwhelming compliance requirements.

Coretelligent's compliant infrastructure experts are attuned to the latest regulatory requirements and will help you take the guesswork out of fortifying your data and infrastructure to meet critical requirements. Our expertise includes FDA Part 11, HIPAA, NPI, PII, and PHI compliant cloud solutions.

COMPLIANT INFRASTRUCTURE FOR LIFE SCIENCES

BUSINESS USE CASES

- Architected and managed HIPAA-compliant cloud infrastructure to improve data security for handling sensitive PHI and PII data for hospital and health systems clients

- Created a Part 11-compliant storage solution to handle clinical trial data for a biotech company.

BENEFITS

- **Meet regulatory requirements** that ensure your data meets the needs of your industry

- **Control costs** by strategizing the right public cloud infrastructure for your specific needs

- **Increased security and privacy** safeguards sensitive data for you, your clients, or patients

- **Designed to scale** as your company progresses through funding stages.

YOUR INDUSTRY

- Biotech
- Biopharma
- CRO
- Genomics
- Medical Device Technology
- Theraputics

THE POWER OF **IT**

HOW IT WORKS?

Our unique **Build and Operate** methodology combines the expertise and resources to develop your business transformation project with the capability to provide ongoing maintenance and support.

We will work with you to evaluate your current architecture and develop the right strategy to address your risk and compliance challenges.

Step 1 - Build: During our Build phase, our experts will provide digital transformation solutions to help your streamline and improve compliance.

Step 2 - Operate: We will then help you continue to monitor and address ever-changing regulatory requirements with our Operate support model.
