

WORKFLOW AUTOMATION

Improve Productivity and Outcomes with Workflow Automation

YOUR WORKFLOW CHALLENGES SOLVED

Is your team struggling with bottlenecks or other obstacles with processes and collaboration? Responding to the evolving needs of business in the digital age can sometimes create unintended operational blockages that produce inefficiencies, stifle collaboration, lead to end-user frustration, and even result in reduced revenue. Is your productivity hampered by time-consuming manual document approvals, using multiple spreadsheets to keep track of processes, or discovering unnecessary errors? Implementing workflow automation can deliver the relief you, your team, and your organization needs.

Coretelligent's engineers can help eliminate obstacles for your organization with workflow automation using tools like MS SharePoint. We will work with you to understand your challenges and develop a solution designed with the features, policies, security, and integration you need to run efficiently and effectively.

BUSINESS USE CASES

- **Life Sciences:** Developed a portal for a biotech firm to manage approvals of clinical trial documents for research scientists.
- **Financial Services:** Worked with a client to generate automations for identifying and protecting sensitive financial information.
- **Professional Services:** Built tools and integrations to grow team collaboration, efficiency, and accessibility for a utility client.

BENEFITS

- **Productivity:** Realize cost savings and increased revenues by improving productivity with automating repetitive, recurring tasks.
- **Customizable:** We utilize a consultative approach to address specific concerns and create a customized workflow automation roadmap directly based on your business goals.
- **Scalable:** Get the solutions you need now that are easily scalable as your organization grows.
- **Enhanced Experience:** Improve client experience and alleviate employee frustration with automated workflows.

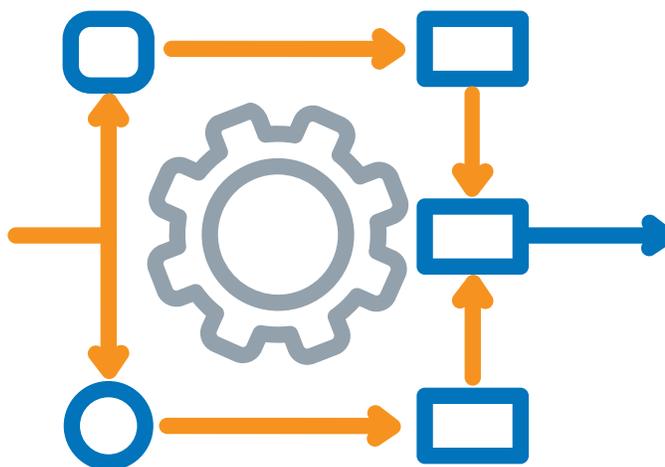

HOW IT WORKS?

Our experts will meet with your team to gain an understanding of your environment and identify opportunities for streamlining and automating processes that can seamlessly integrate into your existing infrastructure and activities.

Coretelligent will work in partnership with you to align technology and strategy at the size and scale you need to solve the challenges you are facing.
